

Curriculum Vitae of Antonio Giordano, M.D, PhD

PERSONAL DATA

Name: Antonio Giordano

Website: www.shro.org

EDUCATION:

1980-1986 M.D. Degree, Summa cum laude. 1st Medical School, University of Naples, Naples, Italy

1987-1990 Ph.D Experimental and Clinical Pathology, University of Trieste, Italy

POSITIONS AND HONORS

1983-1986 Internship, Department of Pathology, 1st Medical School, University of Naples, Italy

1987-1988 Postdoctoral Fellow, Depts. of Microbiol and Immunology, New York Medical College, Valhalla, NY

1988-1992 Postdoctoral Fellow, Cold Spring Harbor Laboratory, Cold Spring Harbor, NY

1990-1992 Postdoctoral Fellow, Irvington Institute for Medical research, NY

1992-1994 Assistant Professor Biochemistry with joint appointments at Fels Institute for Cancer Research & Molecular Biology & Pathology, Temple Univ. School of Medicine, Philadelphia, PA

1994-1996 Assistant Professor, Department of Pathology Anatomy and Cell Biology, Kimmel Cancer Institute, Thomas Jefferson University, Philadelphia, PA

1996-1996 Associate Professor, Department of Pathology Anatomy and Cell Biology, Sbarro Institute, Thomas Jefferson University, Philadelphia, PA

1996-2001 Professor, Department of Pathology Anatomy and Cell Biology, Sbarro Institute, Thomas Jefferson University, Philadelphia, PA

2001-Present Professor, Department of Biology and Medicine, Temple University, Philadelphia, PA

2002-Present Director, Sbarro Health Research Organization, Temple University, Philadelphia, PA

2004-Present Director, Center of Biotechnology, Temple University, Philadelphia, PA

2004-Present "Chiara Fama" Professor, Department of Medicine, Surgery and Neuroscience, University of Siena, Italy

2013-Present Trustee of The American University of Rome

2014-Present Director, Professional Master Program (PSM) in Bioinnovation, Temple University, PA

2019- Member of scientific board of "Scuola Superiore Meridionale" of Naples. (Appointed by Italian Minister of Education)

2020- Member of ISS (National institute of health) scientific board as "Representative of the Ministry of the Environment"
2020- Member of ISS (National institute of health) scientific board as "Representative of the Ministry of the Environment" Director of a scientific board aimed to contrast damage caused by environmental pollution (Ministry of Health)
2023 Director of a scientific board aimed to make health easy for Italians abroad (Ministry of Foreign Affairs)
2023 Member of the scientific board of the Italian League for the fight against cancer (LILT)
2024 Director of scientific board aimed to contrast damage caused by environmental pollution (Ministry of Health)

OTHER APPOINTMENTS

1993-Present President, Chairman of the Board and Founder of the Sbarro Health Research Organization (recognized as a Tax Exempt Organization under section 501 (c)(3) of USA Internal Revenue Code Tax I.D. No.: 23-2745953
2000-2004 Adjunct Professor, Department of Pharmacology - University of Naples (Italy)
2001-Present Member Executive Council Collegium Ramazzini, Bologna, Italy
2001-2004 Adjunct Professor, Department of Obstetrics and Gynecology University of Bologna, Bologna, Italy
2006-Present Member of Editorial Academy of the International Journal of Oncology
2006-Present Founder and Chairman of the Scientific Advisory Board of the Human Health Foundation, Spoleto, Italy
2007- 2013 President of the Scientific Advisory Board and Director of Research line 3 of the Centro di Ricerche Oncologiche di Mercogliano (CROM), Mercogliano, Italy
2010 Honorary Professor of the Autonomous University of Santo Domingo in the Dominican Republic (for achievements in research and the development of biomedicine)
2011 Named member of the Board of Directors of the National Italian American Foundation
2013 Editorial Board Member of Stem Cell Discovery
2014 Advisory Board Member Guglielmo Marconi University
2014 – present Technical Advisor of the Avellino Public Prosecutor's Office for the Isochismic case
2017 Scientific Director of the Medeaterranea - food and wine academy – Naples
2019 President of FONICAP Association

OTHER PROFESSIONAL ACTIVITIES

REVIEWER /Prof. Giordano is grant reviewer for the American Cancer Society and the National Institutes of Health (National Cancer Institute branch); Expert reviewer for SPORE grants in lung and prostate cancer; External reviewer for evaluating research programs for the Food and Drug Administration; Ad hoc reviewer for National Science Foundation and Veteran Administration grant programs. Reviewer for U.S. Department of Defense grant applications. Reviewer of research grant applications submitted to the Italian government (M.I.U.R.- Ministry of Italian Universities) and to European Community review panels. Italian Delegate for Life Sciences for the Framework Program VII (2007-2013). Reviewer for MRC SIR grants and panel member for SRA Lung Cancer Research Program. Over the years, Dr. Giordano has been an Invited Lecturer at hundreds of scientific meetings held within the U.S. and abroad.

PROFESSIONAL ORGANIZATIONS /He is member of several professional organizations such as: American Association for Cancer Research; American Association for the Advancement of Science; The New York Academy of Science; International Society for the Study of Comparative Oncology; Società Italiana Tumori; Gruppo Oncologico dell'Italia Meridionale (GOIM); Italian Society of Histochemistry; Mediterranean Oncology Group; National Italian American Foundation; U.S. Food and Drug Administration; Stem Cell Research Italy.

SCIENTIFIC CONTRIBUTION

MAIN DISCOVERIES /At 26, while a post-doctoral fellow at Cold Spring Harbor Laboratory in New York, Giordano made significant contributions to the field of cancer research. His work led to the recognition that an identical protein species occurs in complexes with both a virus and with the cell cycle regulatory kinase cdc2. Later, this protein species was identified as protein cyclin A, a substance that regulates cell cycle growth. This work helped setting the stage for subsequent discovery in several other laboratories.

Giordano went on to discover Rb2/p130 in the early 1990s while serving as a member of Temple's School of Medicine faculty and as a researcher at the Fels Institute for Cancer Research and Molecular Biology. Since that time, Giordano and SHRO researchers have established links between Rb2/p130 and its expression with the regression of cancer in the lungs, the aggression of cancer in the liver and ovaries, the effectiveness of drug therapies against breast cancer, and as a potential prognosticator of prostate cancer.

Giordano also discovered Cdk9 and Cdk10, two protein kinases that must be activated to guarantee proper progression through the cell cycle. Research has subsequently shown that Cdk9 is a multifunctional protein that plays a critical role in cell differentiation, particularly in muscles, HIV transcription, and the inception of tumors. Recent research has focused on the role of Cdk9-55 in helping to regenerate muscle tissue in cases of muscle wasting from disease or aging.

In July of 2009, Giordano was ranked third on the list of "Laboratory Heads by Number of Publications" on the Cell Cycle Registry, attesting the relevance at international levels of his work on cell cycle regulation.

In 2004, Giordano discovered Novel Structure Proteins (NSPs), a new family of structure proteins with a possible role in nuclear dynamics during cell division. One form of the gene, the isoform NSP5a3a, is highly expressed in some tumor cell lines and could be very useful as a tumor marker. Isoforms from NSPs, a new family of genes could be involved in apoptosis or programmed cell death.

Giordano also played a major role in studying the cyclin-dependent-kinase inhibitor p27 which serves as the prognosticator factor in cancer patients.

Giordano's early investigation and findings on the cell cycle has contributed to a new series of drugs currently in clinical trials. In 2009, he was invited to write on this topic on *Nature Reviews Drug Discovery* in recognition of his role as a leading international researcher in this field *HEALTH AND ENVIRONMENT* / In the past few years Giordano has devoted many efforts to the study of the relation between cancer and environmental pollution in the Italian region Campania. He was among the first to report an increased incidence of various tumor types in the population living close by sites of illegal toxic waste dumping. On this theme he did not only publish scientific articles but also committed to make known these data through: two books on the topic '*Campania, land of poison*' (<http://www.campaniaterradiveleni.com/home-eng.html>) and '*Monnezza di stato. La terra dei fuochi nell'Italia dei veleni*' edited by Denaro Libri and Minerva respectively; by launching a petition to safeguard the environment, which was signed up by over 500 researchers and people in various fields; and through many other no-profit activities.

For more information about Antonio Giordano's contribution to the Health and Environment theme please read also his interview to the Italian Scientists and Scholars of North America Foundation: (<http://www.issnaf.org/italians/intervista-con-antonio-giordano.html>)

AN INTERNATIONAL MODEL /In 1993, Giordano founded the Sbarro Institute with a donation from Mario Sbarro, founder of the Sbarro restaurant chain, following Dr. Giordano's discovery of the tumor suppressor gene pRb2/p130. Initially named the Sbarro Institute, the research center was located at Thomas Jefferson University, where Giordano was a professor. When Giordano moved to Temple University in 2002, he and twenty fellow scientists forged a new, three-year alliance with Temple University in Philadelphia, Pennsylvania. Under the new arrangement, the original Sbarro Institute was renamed the Sbarro Health Research Organization, Inc., which includes the Sbarro Institute for Cancer Research and Molecular Medicine. SHRO funds a program in the University Of Siena. In 2006, Giordano founded the Human Health Foundation (HHF) with the Banca Popolare di Spoleto. The charitable organization raises funds to support biomedical research and health education in Italy.

TEACHING RESPONSIBILITIES /Giordano dedicates a great part of his time in teaching (please find below a list of courses presented during his career) and in setting up new strategies for the education of young scientists. For example, he opened a SHRO island on Second Life (SL), a three-dimensional virtual world created by Linden Laboratories in 2003, whose participants, called residents, reached in July 2008 more than 14 million with a total of 1.205.307 logging in from May to July 2008: SHRO island on SL includes laboratories, a conference room, places for informal discussions and offices. So far, SHRO Island hosted international meetings and tours for students and PhD students in the virtual laboratories in which they can have a virtual training in performing some experiments with the help of notecards explaining technical and scientific details of the different experimental steps.

COURSES PRESENTED /

Cell Cycle of Cancer, a graduate course, Department of Biochemistry. Temple University, Philadelphia, PA, 1992-1994
